DELEGATE TO CONFERENCE

Scientists in Belgium Confident That Both Peary and Cook Reached North Pole.

Former Governor A. J. Montague returned yesterday from Brussels, where he was one of the four delegates of the United States to the third international conference on maritime law. He declares that the deliberations of that body resulted in great progress toward the unification of maritime law, and that, not far distant is the time when the admiralty jurisdiction of the nations will be uniform.

It was a very earnest and notable conference," said Mr. Montague, "and often the sessions lasted until late in the night, though they began on September 23 and continued until October 10. The president of the conference was Mr. Beerhardt, who for twenty-five years was secretary of foreign affairs for Belgium. Though more than eighty-two years of age, he is possessed of splendid vigor of body and mind, and made a fine impression upon the delegates. He is one of the most remarkable men that I have ever seen, and is a man of great means and broad culture."

Collisions and Salvage. Four general subjects were before the conference. The first was in reference to collisions at sea and the liabilities resulting therefrom, and the second related to maritime assistance and salvage. In regard to these two subjects, the conference reached agreement and a convention was drawn up to be submitted to the various governments represented in the session. A convention is a draft in regard to one topic, contrasted with a treaty, which deals sweepingly with many subjects.

The other topics under discussion were: Limitation of liability of ship owners, and liens and mortgages and their priorities. No convention was adopted bearing on these subjects, but tentative drafts will be submitted to the several governments with a view to probable changes, these drafts being called "studies."

Twenty-four nations were represented at the conference by seventy-four delegates. The delegates from the United States were: Walter C. Noyes, of New London, Conn.; E. W. Smith, of Pittsburg, Pa.; former law partner of Secretary of State Knox, and Charles H. Burlington, of New York, an eminent authority on maritime law.

Mr. Montague stated that there were a number of very strong delegates, deeply versed in the subjects under consideration. Strange to say, Norway came forward with the claim that it was the fourth nation in maritime commerce, and made a claim which was not taken into consideration. The Norwegian ships are small, but they are many in number.

CHILD BADLY BURNED

Mrs. Shope Returns in Time to Save Two-Year-Old Daughter from Terrible Death

Susan Shope, the two-year-old daughter of Mrs. Shope, of 1115 Dance Street, was badly burned yesterday morning while playing near an open grate.

Mrs. Shope had left the child alone for a few moments while she was across the street, was returning when the child, who was playing near the grate, was burned. Mrs. Shope rushed in and instinctively grabbed up a bed covering, which she threw over the child, and then she rushed to the telephone and called for Dr. Womack, of the city ambulance corps, who treated the child, does not think that the burns are fatal.

Williams coming down with it, and struck Mr. Charles Rogers, a bricklayer, employed at the Mutual Building, North and Main Streets, who was struck by a piece of heavy scumming. Mr. Rogers was walking on the roof of the building when the piece of timber above, causing it to fall. It fell, Williams coming down with it, and struck Mr. Rogers on the back, knocking him unconscious. Williams was only slightly hurt.

Dr. Womack found that Rogers' injuries were not serious, and he was sent to his home on Seventh Street.

The teachers of Henrico county met yesterday in the office of Superintendent Maddox and organized into a permanent association, electing officers. Anthony to Support John L. Satterfield

To the Democrats of Richmond: There seems to be some misunderstanding as to my attitude in the coming election of November 2; why, I do not know. I am a Democrat, and as such entered the primary of June 24, 1908. I shall support the nominees of said primary, and I earnestly request all of my friends who voted in said primary to support John L. Satterfield, the people's choice, for under no consideration would I now accept the office of City Sergeant after pleading my support to the nominee.

Richmond Medical Men Leave to Attend Phi Beta Pi Convention.

Delegates from Psi Chapter of the Medical College of Virginia, and from Phi Chapter of the University College of Medicine, will leave to-day for New Orleans to represent their respective institutions at the annual convention of the Phi Beta Pi International medical fraternity, which meets in that city, November 4, 5, 6 and 7. The membership of the fraternity is confined exclusively to the medical profession, and includes in its enrollment many of the most prominent practicing physicians in the United States and Canada.

The Phi Beta Pi fraternity, it is claimed, owes its high standing chiefly to its conservative selection of chapters, which are located only in colleges and universities which belong to the Phi Beta Pi Chapter of the American Medical Association. In New Orleans the various branches of the Phi Beta Pi Chapter of Tulane University. Several hundred delegates are expected to attend the convention.

Crutchfield, of the Bank of Richmond, and is a member of the Virginia Legislature.

CRUTCHFIELD TO HANDLE DR. COOK FOR SAM KAUFMAN

Sam Kaufman and Charles E. Gilbert, both white, were fined \$300 and sentenced to ninety days in jail in Police Court yesterday morning on a charge of operating a gambling resort in the Ford Law Building, and while the Ford Law Building, and while the father of Sam Kaufman, was arrested on a bench warrant, charging him with being implicated in the same offense.

It was on Gilbert's testimony that the elder Kaufman was arrested. Sergeant Willey, of the detective department, testified that he found Gilbert in the Ford Law Building, and that the latter informed him that he had a room there, and that the place was rented in the name of A. H. Kaufman. The detective further stated that he found a table covered with felt, a box containing chips, cards and blank checks.

L. Laub testified that he first went to the place in company with Gilbert, and that he lost \$35 in the first night's play. He stated that he bought chips either from Gilbert or Kaufman. He played again the following night, he said, and lost again.

Gilbert stated that the elder Kaufman handled the profits and divided with his son, and that he, the witness, was supposed to get 25 per cent. of the profits.

Kaufman said that he did rent the place with the idea of establishing a club. He denied that he received money from the games or that he had anything to do with them. His case was continued to November 27, and he was bailed in the sum of \$500.

Gilbert and the younger Kaufman appealed.

ISSUES STAMPS

Man to Be Placed at Every Henrico County

At a meeting of the Electoral Board of Henrico county yesterday morning, Garland B. Taylor, secretary of the Henrico County Democratic committee, gave out stamps bearing the name of B. O. Jones, Democratic nominee for the Secretary of the Commonwealth, in the name of D. Q. Eggleston. A man will be placed at each precinct to instruct the voters how to apply the stamp. A sweeping Democratic majority in the county is expected.

BUTZNER TO GRAND JURY

Four Months in Jail for John Pleasant, a Convicted Shoplifter

J. B. Butzner, the street car conductor charged with shooting John Gray (colored) on October 18, was sent on to the grand jury on the charge of manslaughter yesterday morning. He was bailed in the sum of \$500. Several witnesses stated that the conductor did not arrive at the scene without intention of hitting the negro.

Salvation Army Services.

Adjutant and Mrs. William C. Crawford, young people's secretaries of Atlantic Coast Province, Salvation Army, arrived yesterday to take part in the special services to-day. They will speak to-day as follows: 11 A. M. at army hall, 3:30, Byrd Park. There will be a mass-meeting at the Lynch Theatre to-night, at which Mrs. Crawford, Mrs. Tinsdale and Captain Frank W. Cunningham will sing.

In Virginia was characterized by office Congressman Hay was informed that the recommendation for the money must come from Mr. Slem. And yet there is not a man in this audience who is not his equal, mentally or morally or in every way.

Speaker Byrd said a tribute to the work of J. D. Eggleston as Superintendent of Public Instruction. He declared that Mr. Eggleston has breathed the very breath of life into the educational institutions of the Commonwealth. "There has been no change like this in the history of this State. It is just as if we had been transported into another century. I thank God the time has gone when all an office-holder had to do was to talk on the stump. In these days a man must make good. Eggleston has done it."

Needed Legislation. In conclusion, Mr. Byrd outlined two important policies ahead of the Legislature. One is the legalization of the primary. "There is no use talking," he declared, "about going back to the old convention system. We have the primary and it must be strengthened."

In his own city, he said, there is a committee which has not been changed for nine years. "They won't let anybody elect a new committee. When one elects his successor. They don't like me, so in the primary they appointed judges who didn't like me. They didn't hurt my chances for I had the votes, but this shows the possible abuses under a new committee system. The primary is not legal, so that my hands were tied so far as the courts were concerned."

The other needed legislation, according to the Speaker, is the equalization of taxes. On this subject he touched briefly.

These two practical questions, he concluded, should be settled by the Democrats, and if the party is entrusted with them these matters will be settled for the good of all the people.
